

Surveying Services for AMTRAK in all Four Zones

Garg Consulting
Services, Inc.

Garg performed on-call surveying services in all four zones of AMTRAK, whereby the services varied from site to site. The work included, but was not limited to:

- Horizontal and Vertical Control.
- “As-Built” survey.
- Digital drafting.
- Field layout.
- Utility location.
- Hydraulic surveys for flood plains and stream boundaries.
- Boundary work including research, easement routes, metes, and bounds.
- Topography.
- CADD and manual drafting.
- Photographs as needed to characterize the sites.
- Survey reports.
- Wetland delineations and other miscellaneous survey tasks.
